PLACE

Thank you for the notice you provided to SEPA on 4 June 2015.

I confirm that on 4 June 2015 we entered the relevant particulars, which you provided in the notice, in the register of establishments or undertakings carrying on exempt activities.

The exempt activity which you have advised us that you intend to carry out is “the repair and/or refurbishment of WEEE at a secure place” in accordance with paragraph 47 of Schedule 1 to the Regulations

As the activity has been registered as “exempt” you do not need to obtain a waste management licence in order to lawfully carry it out provided you comply with the requirements set out in the Regulations, including in particular Regulations 17, 27, 28 and Schedule 1 paragraph 47.

Regulation 28 of the Regulations contains the Registration Obligations that require you to give appropriate notice to us of the date on which you first begin to carry on the exempt activity. In addition you must comply with the Relevant Objectives which are set out in Paragraph 6 of Part I of Schedule 4 to the Regulations (“the Relevant Objectives”).

One of the requirements of the Relevant Objectives is that waste is managed without endangering human health or using processes or methods which could harm the environment. If you fail to comply with this then you may be committing an offence under section 33(1)(c) of the Environmental Protection Act 1990 by treating keeping or managing controlled waste in a manner likely to cause pollution of the environment or harm to human health. It is also an offence to carry on an exempt activity in breach of the Registration Obligations.

The renewal date for registration of your exempt activity is 23 July 2016.

We will send you a renewal notice requiring the payment of the annual charge when it is due. If you wish to renew the registration you must send the charge to us along with:
